

Lego Club Feb. 13, 2023 Animal Mosaic Challenge

Materials:

Lego Bricks
Base plates

Directions:

1. You may want to look at the mosaic designs provided (see below) or look at pictures of animals to provide inspiration. A coloring book will have simple outlines of animals that may provide a good starting point.
2. Begin by creating your animal first. I have included designs for six animals below.
3. Once the animal is complete you can fill in the rest of your baseplate with a background color. A solid colored background will help your animal really stand out.
