

## **Lego Club Feb. 6 CANYON ESCAPE**

### **Materials:**

**Lego bricks**

**String (optional)**

**Mini Figure (or any small figure)**

**A box or other plastic tub**

### **Build idea:**

**Your mini figure was exploring the great outdoors and fell into a canyon (the box). Your mini figure is okay but is now trapped at the bottom of the canyon! It is up to you to create something to help your mini figure escape! It can be real (like a crane or catapult) or imaginary (like a flying carpet). Try to push yourself to create something other than an elevator or stairs. Use your imagination to come up with any device or vehicle that can help your mini figure escape from the canyon.**

***I would love to see pictures of your creations! Email them to me at [diana@clearviewlibray.org](mailto:diana@clearviewlibray.org)***
