

Getting Crafty

CRAFT STICK BEARS

- Jumbo Craft Sticks {3 per bear craft}
- Mini Craft Sticks {2 per bear craft}
- Low Temp Glue Gun or Craft Glue
- Yarn
- Scissors
- Brown Cardstock Paper
- Black Sharpie Marker
- Googly Eyes

1) Construct the base of your bear by gluing 3 jumbo craft sticks and two mini craft sticks together to look like a fence door. {3 next to each other with the mini craft sticks across to secure in place.}

2) Allow it to dry completely.

3) Take one end of your yarn and glue it to the back of your craft stick bear body shape.

4) Start wrapping the yarn several times around the popsicle stick base, until you have the look you like.

5) Cut the yarn and use glue to secure the loose end to the back of the craft stick base.

6) Cut out several small oval shapes that will become the bear's nose, ears, & feet.

7) Take the black Sharpie marker and draw on the mouth & some embellishments on their feet to look like paws.

8) Glue all the paper pieces to the yarn wrapped craft stick shape.

9) Glue some wiggle eyes on so they can see.

10) Add any other embellishments you see fit.
